Friendship

Thumbs Up Thumbs Down

- I can make friends by pushing them down the slide.
 - What could you do instead?
- I can make a new friend by smiling and saying “hi.”
- I can ask a new friend what their favorite game is.
- I should never ask new friends what they like.
 - What should you do instead?
- I can make new friends by inviting them to play with me.
- A person who could be a good friend for me is someone who has similar interests.
- I am a good friend when I pray for people I care about.
- People who are different from me can’t be my friend.
 - That’s crazy, isn’t it! Can we be friends with people who are different?
- I know a person is the right friend for me when they treat me kindly.
- When I see someone being left out of the game, I should ignore them.
 - You are all so smart! You’re right. What can we do instead?
